

## POSITION ANNOUNCEMENT

### **Soil Scientist – California North Coast**

Crop Care Associates, Inc. is seeking a Soil Scientist to work primarily within Northern and Central California.

Responsibilities include soil profiling and mapping, sample collection and report writing. Also included will be work in plant nutrition, irrigation scheduling and some pest management.

Requires a minimum M.S. degree in Soil Science or related field, and training in GIS-based mapping systems such as ArcView. Experience in viticulture or irrigation technology and an interest in wine will be an advantage.

The position is full time and based in the Napa-Sonoma area. Salary will be commensurate with experience and skills.

Send a cover letter and resume to: **Human Resources**
